Dear Parents and Carers,

### Sumdog Maths resource

As an academy, we are constantly looking for ways to move forward and make your child's educational experience with us a successful one. To support skills and confidence in Mathematics, all pupils in our school have been given access to Sumdog, both in school and at home.

Your child will have already been given log in details for **sumdog.com** and will have accessed it to try out the site. There are a large number of learning activities which present a fun and engaging way for them to practise and improve their Maths skills, with questions tailored to their exact level of learning. For teachers, it supports and extends the learning done in the classroom and provides an evolving analysis of each child's understanding. In addition, specific tasks and competitions can be set up, adding further to the experience.

We are encouraging pupils to access Sumdog as part of their home learning. The site can be found at **sumdog.com**, or via a free app which can be downloaded on to tablets and phones. We hope you will support you child in using the activities and take the opportunity yourself to see what is on offer.

Information on Sumdog can be found at: **[learn.sumdog.com/en-gb/](https://learn.sumdog.com/en-gb/)**

If you have any questions, please do not hesitate to contact me at the school either via the office or through Class Dojo. I am Badger's class teacher.

We look forward to seeing the benefits of this project and welcome any feedback you may have.

Many thanks,

**Patrick Miles**

Interim Maths Lead
