

Top Tips for Live 'Teams' Lessons

In order to provide high-quality teaching and learning online, it is important that we all follow these guidelines. We must keep everyone safe. The following expectations are to be adhered to by parents and carers, children and our teachers, in order to provide a safe, secure and effective online community *for all*.

Be on time

Be respectful

Dress Appropriately

Be in an appropriate location for the lesson with no distractions. For example, not in bedrooms and where possible, a neutral background. Headphones may help you concentrate, if you have them.

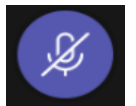

Do not share images or videos of the live lesson.
It is very important to respect the privacy of everyone attending.

Parents or carers will need to appear briefly on the screen at the start of the lesson to confirm they give consent for their child to participate in the live lesson.

It is always advisable for parents to supervise their child's internet use and online learning - check what their children have been asked to do and the websites they need to access.

Learners, please mute your microphone when you are not talking.
We expect the same manners, when speaking, as we do at school.

Enjoy your lesson- it is a really positive experience to get together in a virtual way. Join in as fully as you can!

Teachers will always work with parents and carers. If there is any feedback or a concern arising from an online session, they will get in touch with them to talk about it.
